UNITY SCHOOL
EMPOWERING CHILDREN & INSPIRING LEARNING

We're pleased to share that Unity School now has a customized mobile friendly version of FACTS. The FACTS Family app is a one-stop-shop that brings everything you need to make the school year a success right into the palm of your hand. All key features from the online version are available on the app. Easily access homework, grades, the directory, billing, lunch menu and more. You can click here or use the QR code below to download the app to either an Apple or Android device. Once you've downloaded the app, use district code UD-FL and the same username and password as the online version to login. Please contact tech@unityschool.com should you need further assistance.

QR code also available at: https://unityschool.com/
